

United Way Fundraising Opportunity for Nativity!

As the New Year rapidly approaches we wanted to take this opportunity to again remind everyone that we have a tremendous opportunity to raise money for Nativity through this quick and easy passive fundraising opportunity!

Did you know that Nativity of Mary School is a designated charity under the umbrella of the United Way? Our school can be designated by **anyone** donating to the United Way through a payroll deduction at your place of work and all funds donated will be given to Nativity!

Many people contribute to the United Way via a mandatory contribution through their employers. Why not designate your contributions to go to Nativity and help our school? In addition, if you have family or friends that contribute to the United Way and do not designate a charity for their donations, why not suggest Nativity?

We already have commitments from a number of school families and this is a great opportunity to help us meet our fundraising goals for the year. If you haven't designated Nativity as a recipient of your United Way donations, please do so today! Designations can be made at any time and will be retroactive for all donations in that year. In addition, if a donor forgets to designate his gift, he may still designate Nativity by writing to the United Way anytime during the year up to six months after the completion of the campaign.

Many companies are currently going through their United Way sign up procedures. Why not help our school by designating Nativity today!

Our school code is 3872 - Nativity of the Blessed Virgin Mary and information on the United Way designated donor program can be found at: <http://www.uwbec.org/donordesignation>.

Thank you for your continued support of Nativity of Mary School!!!!
